Testing: JUnit, Mockito

Concepts: OOP, SOLID Principles, Design Patterns, Data Structures & Algorithms, SDLC, OS, System Design

Experience

Software Developer

July 2026 – Present

Verzat Technology Private Limited

Pune, Maharashtra

- Developed an enterprise **file management and collaboration platform** supporting secure file storage, sharing, version control, previews, and document lifecycle management using **Java, Spring Boot, React.js, PostgreSQL, and AWS S3**.
- Engineered **RBAC and granular permission management** with role templates, user-specific overrides, module-level access, ownership controls, and secure sharing workflows, strengthening authorization across file and folder operations using **Spring Security, JWT, and PostgreSQL**.
- Identified and resolved **privilege-escalation and cross-tenant security vulnerabilities** across sharing, approvals, user access, and ownership APIs; built comprehensive **audit logging, notifications, and approval workflows** to improve security, traceability, and administrative control.
- Tech: Java, Spring Boot, React.js, TypeScript, PostgreSQL, AWS S3, Spring Security, JWT, JPA/Hibernate, REST APIs, Git

SDE

Dec 2025 – June 2026

NdSoftTech Solution

Pune, Maharashtra

- Designed **agentic AI workflows** using **n8n** integrated **Stable Diffusion API, Groq API, OpenAI**, and **Google APIs** for automated image generation pipeline with backend model serving via **vLLM** on **Ubuntu** with **CUDA** acceleration using **Python**.
- Built and deployed a **multi-platform asset migration web application** using **TypeScript** supporting **15+ platform connections** (AEM, AWS, Cloudinary, WordPress, Dropbox, Contentful, GCS) enabling automated full data migration between platforms via credential-based authentication.
- Tech: Java, JavaScript, n8n, vLLM, CUDA, Stable Diffusion, Groq API, OpenAI API, TypeScript, REST APIs, JSON

Software Developer Intern

May 2024 – Oct 2024

B.N. Consultant

Gwalior, Madhya Pradesh

- Developed and maintained interactive **React.js** frontend applications using **Material-UI (MUI)**, delivering responsive and user-friendly interfaces across application modules.
- Integrated and consumed **REST APIs** with backend services built using **Node.js**, enabling reliable data exchange and seamless frontend-backend functionality.
- Tech: React.js, Material-UI, JavaScript, HTML, CSS, Git

Projects

Airgo | *Full-Stack Airline Management System* | [github/Sunbeam-Bhavesh/Airgo](https://github.com/Sunbeam-Bhavesh/Airgo)

- Designed and implemented a full-stack **airline management system** handling flight scheduling, seat booking, and admin operations built with **React.js SPA, React Router** and secured via **Spring Security** for role-based Access.
- Identified and resolved **N+1 query problem** in booking data retrieval by implementing **JOIN FETCH** in Hibernate (JPA), significantly reducing redundant database calls and improving API response performance.
- Tech: Java, Spring Boot, Spring Security, JWT, React.js, MySQL, Tailwind CSS, React Router, Hibernate (JPA)

Education

Lakshmi Narain College of Technology Bhopal, Madhya Pradesh

2021 – 2024

B.Tech, Computer Science

CGPA: 8.6

Achievements & Certifications

- Completed **CDAC** (2025) with hands-on training in **Java Full Stack Development**.
- Certified in **Elements of AI** and **Agentic AI** by **MinnaLearn Academy** (2026).
- Certified **Java Developer** on **HackerRank** (2025).
- Solved **600+ LeetCode problems** with consistent participation earned **LeetCode T-shirt** (2025).
